

## Baby Wipe Techniques

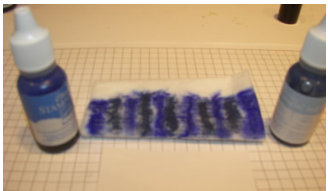

Background stamping:

You will need:

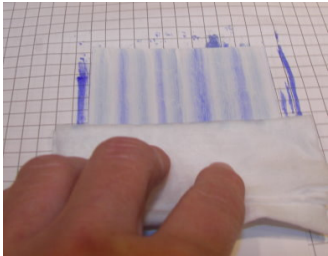

Baby wipes  
Several colors of Classic Stampin' refills  
Glossy paper  
Repositionable adhesive (optional)

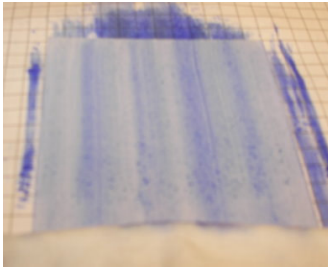

Fold the baby wipe into a rectangle slightly larger than your piece of glossy paper. Draw lines with the darkest color of re-inker first. I used Ballet Blue.

Draw lines with lighter color of re-inker – I used Bashful Blue.

Tape the glossy paper to your surface using the repositionable adhesive. Pull the baby wipe down the cardstock to create lines.

You can go back over the glossy paper as many times as you'd like to create the look you want.

Mount your piece on your card and finish as desired!
