

## Baby Wipe Techniques – Stamping

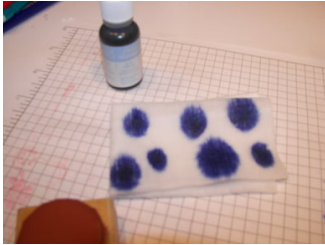

You will need:

Baby Wipes

Several colors of Classic re-inkers (Bashful Blue, Apricot Appeal, Pretty in Pink)

Stamps (Simple Shapes)

Glossy Cardstock

Fold your baby wipe into a square that is large enough for the stamp. Using the darkest color first, drop random dots on the baby wipe making sure to leave a lot of space.

Next add your second darkest color.

Finish with the lightest color re-inker.

Ink up directly on the baby wipe and stamp on your glossy cardstock. Though you don't need to actually scrub between each stamped image, it is a good idea to stamp the stamp "clean" on your scrap paper so it doesn't muddy the inks.

Finish your card as desired!
