

Spinner Card Tutorial

Supplies:

In Full Bloom stamp set
Quick Thinking stamp set
Basic Black Classic pad
Really Rust Classic pad
Ruby Red Classic pad
Mellow Mustard Classic pad
Dimensionals

Summer Sun Classic pad
Garden Green Classic pad
Blender pen
1 ¼" and 1 ⅜" circle punches
Acrylic grid ruler
Word window punch
2 pennies

Cardstock:

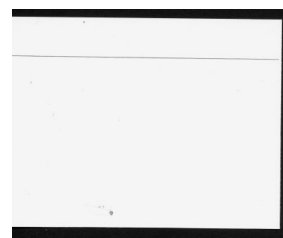

Summer Sun – ½ sheet
Garden Green – 5 ⅜" x 4 ⅛" plus scrap for punch
Whisper White – 5 ¼" x 4" plus scrap for punch

1. Draw a line across the Whisper White cardstock (horizontally) at least ¾" from the top. If you need a better mark, draw another line ¼" below your first line.

2. Use the Word Window punch to punch an opening in the cardstock. This can also be done with your Coluzzle or papercutter.

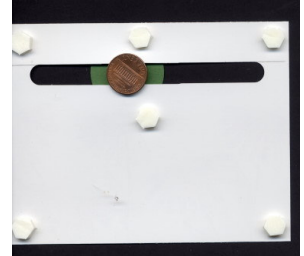

3. Stamp your design on the front of the whisper white cardstock and embellish as desired. Stamp your image for the spinner and punch out using the 1 ¼" circle punch. Layer the circle onto a 1 ⅜" circle punch of Garden Green.

4. Lay the Whisper White piece over the Garden Green and trace lightly around the punched opening. Stamp desired image or word in the space.

5. Place a dimensional on the center of one of the pennies. Lay the other penny on top making sure to evenly sandwich the dimensional between them. Place a dimensional on top of the penny sandwich and adhere your spinner circle on top. The stack should go – penny – dimensional – penny – dimensional – spinner circle. Carefully place the pennies in “track” made by the Window Word Punch on the Whisper White cardstock. The dimensional should sit on the track with a penny in the front and a penny in the back. This is what makes it spin.

6. Place 2 dimensional, one on top of the other, in all four corners and on either side of the track.

7. Erase the pencil line on your Garden Green cardstock and adhere it to the Summer Sun card front. Carefully adhere the Whisper White piece over the Garden Green making sure to line up the opening with the words on the Garden Green. Gently tilt your card and watch it spin!
