

Using a Punch as a Stencil

1. Punch the punch on a piece of dark colored Stampin'UP! Cardstock. It's heavy enough to use as a stencil!

2. Lay the stencil on top of another piece of cardstock and use a sponge dauber to apply ink or Stampin' Pastels.

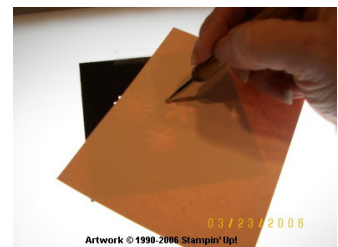

Use the Punch with a Light Box (Dry Emboss)

1. Punch the Stampin' UP! Cardstock and adhere the piece to your light box.

2. Lay a piece of cardstock over the punched image and trace with a stylus.

3. Optional: Use your Stampin' Pastels to highlight the dry embossed image.
